NUMBER 190.

VICTIMS OF THE HEAT

Twelve More Deaths Take Place in Cincinnati.

THIRTY-FIVE WERE PROSTRATED.

A Thunderstorm and Heavy Rain Causes a Drop of Twenty-Three Degrees in Temperature—Two Deaths and Seventeen Prostrations in Pittsburgh—Fatalities Occur in Several Other Cities.

CINCINNATI, July 6.—The names of those who died from excessive heat yesterday are:

W. A. Baker.
Mary Fleming.
Kate Sexton, an infant.
Laura Burdall, an infant.
Harry Brown, an infant.
John Hemphill.
Richard Fleming.
Mary Barum.
George J. Hoefling.
Joseph Haslascher.
Mrs. Elizabeth Burke.
Joseph Fieber.

There were 35 other prostrations, of which official notice was taken by the police patrol wagons conveying the victims to homes or hospital, and fully as many minor cases, in which the victims were able to go to their homes without help.

The weather bureau reported the mercury at 70 at 5 yesterday morning and 93 at noon, which was the maximum. A thunderstorm set in at 3 o'clock in the afternoon and continued two hours, which cooled the air to 70 degrees at dark. Since then it has been rising slightly.

Street thermometers marked a temperature from 3 to 5 degrees above the weather bureau figures.

There have been 31 fatalities in three days.

STILL HOT IN CHICAGO.

There Were Nine Deaths and Twenty-eight Prostrations.

CHICAGO, July 6.—Yesterday was cooler, but the pavements and buildings had stored up sufficient heat to make things very uncomfortable. There were 9 deaths and 28 prostrations, three of them probably fatal.

The dead are:

Simon Kozents, found dead in bed, heart disease, superinduced by the heat.
Celia Halis, 4 months old.
Albert Kath, found dead in bed, heart disease, superinduced by the heat.
George Williams, sunstroke.
Emma Zareal, prostrated Saturday and died yesterday.

James Cudahy, laborer, prostrated Sunday and died yesterday.

Samuel Walczber, ill-health, aggravated by the heat.

Adolph Volkner, prostrated Sunday, died yesterday.

C. Taylor, found dead in his house, heart disease and heat.

The total number of deaths in last four days attributed to the heat was 27, and there were 138 prostrations, some of which may prove fatal.

NINETY-NINE IN PITTSBURG.

Two Deaths from Heat and Seventeen Prostrations Reported.

PITTSBURG, July 6.—The thermometer here yesterday reached 90 degrees, the hottest July day for 10 years. As a result of the intense heat 2 deaths and 17 prostrations are reported.

During a heavy storm which passed over the city yesterday evening Daniel Matthews, a well-known horseman, was instantly killed by lightning at the Homewood race track.

The deaths from heat are: Michael O'Laughlin and Mrs. Mary Doyle of Braddock.

Those prostrated are: Lucinda Johns of McDonald, Pa.; Robert Moore, John Hein, Thomas Patch, William McFarland, James Mahan, John Hurley, Martin McCloskey, Claude Sharp, Charles Crest, David Larkin, William Lewis R. Dority, A. K. Sullivan, Frank O'Brien, William McBride and William Born.

At Fort Wayne.

FORT WAYNE, July 6.—July 5 was another hot day here. The thermometer was above 96 degrees nearly all day. Those who succumbed were: Mrs. Amelia Miller, Mrs. Eliza A. Ewing and Frank Huxley. Mrs. William Miller, who was prostrated Sunday, died yesterday. Mrs. William Pollock was prostrated in a cherry tree, and fell to the ground, breaking both legs.

Cooler in Detroit.

DETROIT, July 6.—The heat became less unbearable toward evening. But four deaths from prostration are reported in the city and vicinity, as follows: Mrs. Kowalski of Portland, Mich., visiting in Detroit; Mrs. Catherine Orr, Robert Plath and Henry Lang. Twenty additional cases of sunstroke are reported, but none of them serious.

One Death in Cleveland.

CLEVELAND, July 6.—The heat moderated yesterday evening as the result of a thunderstorm. There were seven prostrations, only one of which proved fatal. The one death was that of Mrs. Barnes, an aged woman, who lived on Avondale avenue, Glenville, with her son. Thermometer was 95 degrees.

TURKS RENEW HOSTILITIES.

They Attack the Village of Kalabaka and Destroy It.

ATHENS, July 6.—The Turkish troops, after a sharp fight with the inhabitants, have occupied the village of Kalabaka, in North Thessaly.

Kalabaka, although within the terri-

tory occupied by the Turkish troops, was under Greek administration. The attack was made last Thursday by a body of Turks and Albanians 2,000 strong. The inhabitants fought desperately, killing many of the Turks, but were finally overpowered. Most of them fled to the mountains. The others have probably been massacred or taken prisoners. The Turks, after pillaging the town, destroyed it.

HERE'S THE BALLOON,

Now Where Is the Man Who Set Sail in It?

CHICAGO, July 6.—Evanston life-savers are looking for a lost aeronaut. When they find him they will restore to him his balloon. The air ship is riding on the face of Lake Michigan, about three miles off the Evanston station, but it is anchored and the aeronaut can have it on application. When the balloon was first sighted the life-saving crew ran out their boat and after a hard pull managed to capture it. The life-savers say the balloon is of the kind used for long voyages, and not the hot-air kind sent up by parachute jumpers. Beside this, the basket is the kind used by balloonists for long trips, parachute leapers only employing a trapeze.

The runaway balloon was first seen to strike the lake a few miles off Rogers' park. It swooped down from a great height, and at the first plunge the ear went under the waves and was dragged along a considerable distance under the water. Sometimes the balloon would mount upwards and lift the car 10 or 15 feet above the water and then dive down again and immerse the basket. There were no balloon ascensions, so far as known, around Chicago yesterday, and the presence of the balloon over the lake is a mystery.

RUN DOWN BY A STEAMER.

Four People Drowned in the River at Little Rock, Arkansas.

LITTLE ROCK, Ark., July 6.—An accident occurred on the river last night which resulted in the drowning of four people. The drowned are:

Miss Josie Sanders, aged 18, of Little Rock.

Miss Mary Arber, aged 19, of Little Rock.

Jake Dante of Pine Bluff.

Joe Dante of Pine Bluff.

Miss Sanders, Miss Arber and the Dante brothers were in a skiff on the river where they had gone to view the fireworks being set off from the center or the new bridge. When the pyrotechnic display was over the pleasure steamer U. K. Riggs, started on an excursion up the river and ran down the skiff, throwing all the occupants into the water.

RETURNING GREEKS.

Disappointment to Those Who Responded to Their Country's Call.

NEW YORK, July 6.—George Viley, a Greek of this city, and 15 other Greeks who three months ago were among the patriots that went to Athens to offer their services to Greece, returned on the French liner La Bretagne. They have started for their several homes, some of them having settled in the west.

Mr. Viley said that on reaching Athens they were told that their services would not be required and were therefore not enrolled in the army. This was a great disappointment to many and some equipped themselves to go to the front as sharpshooters.

Of the several hundred Greeks who went from the United States, many will remain in Greece; others are scraping together the means and will endeavor to return.

Not Held for Murder.

ST. LOUIS, July 6.—The grand jury failed to indict May Campbell for the murder of Mand Devere, which occurred several weeks ago. The jurors decided that the Devere woman died from the effects of the operation after an attempt to locate the ball, and that the wound in itself would not have proved fatal. Tom Campbell and his wife, Mary, were playing an engagement in a cheap variety theater. Mrs. Campbell came from Cincinnati a week before the tragedy. She caught Campbell with the Devere woman and shot them both. Campbell recovered, but the woman died.

Three Lives Lost.

WEST SUPERIOR, Wis., July 6.—By the capsizing of a boat in Superior bay yesterday three persons lost their lives. Daniel, Christie and May McDonald of Itasca and Burton McCurry of Omaha, an electrician, were drowned, the other three members of the party being saved. The boat was overlaid and shipped water over her gunwales. Some of the party climbed out of the boat, which was in some way overturned. Lewis Sprague, A. Ingram and Agnes McDonald were rescued by John Barlow, whose yacht happened to be near at hand.

Several Firms Burned Out.

JACKSON, Miss., July 6.—Fire caused by fireworks was discovered in the store of Childs-Catchings' Furniture company, located in one of the best business blocks in the city, and on account of poor water pressure the fire was not extinguished until it had consumed the furniture store, together with Harrington's drug store, the Lightning cash store and Spickard's drug store. Loss about \$50,000; insurance one-half.

Last Heard From Professor Andree.

STOCKHOLM, July 6.—A dispatch from Danes island, dated June 28, announces that the filling of Professor Andree's balloon was completed on June 22, and that everything was ready to start in his attempt to cross the Arctic regions on July 1. The winds had been chiefly northerly.

MANY MEN ARE OUT

The Coal Miners' Strike Has Been Nearly General.

STRIKE PROMISES TO BE A SUCCESS

Much Depends on the Men in the Pittsburgh District—Operators Are Making No Effort to Start Their Mines, but Are QuietlyAwaiting Developments—President Hatchford Talks on the Situation.

COLUMBUS, O., July 6.—Advice received at national headquarters of the United Mine Workers of America here indicate that the great coal strike is pretty general throughout the United States. In Ohio the Hocking valley is nearly all out, most of the eastern part of Perry county is out, practically all of the Sunday Creek valley, nearly all of Belmont county, and in Jackson county all except a scattering few who insist on working until they ascertain what is being done in the other regions, particularly in West Virginia, which is a close competitor.

President Hatchford of the United Mine Workers said it would require several days to receive full information from the various districts as the district presidents would necessarily have to have time to communicate with the numerous locals before reporting definitely to national headquarters as to the completeness of the suspension. Before the end of the present week, however, the national officers will have the information at hand as to the exact situation at all the mines in the country. If there should be any mines in operation the officials will know their location, the number of men employed and whether or not they are members of the miners' organization.

The information which the national officials have at hand is of a general nature and is to the effect that the miners have generally suspended work and the strike promises to be a success. The success of the whole movement seems to devolve upon the men in the Pittsburgh district and judging from the latest advice received from that field, the miners there propose to do their part.

So far as can be learned the operators in both the Pittsburgh and Ohio districts do not intend to put forth any effort to start their mines, but have concluded to quietly close down and await developments. At least it will require several days for the operators to determine upon what course to pursue.

President Hatchford said: "The success of the movement naturally depends upon the unanimity with which the miners respond. We are ready and willing to lead the movement, but the efforts of the miners themselves is the real force, and we can not fail to succeed if they play their part."

President Hatchford said he had been astonished at the great number of telegrams received from operators requesting permission to operate their mines by paying the price demanded by the miners. These requests could not be granted for the reason that to do so would be defeating the very object which the strike is intended to accomplish.

The Ohio operators will be governed in their course entirely by the action of the Pittsburgh operators. If the latter agree to an advance in the price the Ohio operators will not object, but will readily pay the advance. As a matter of fact it is understood that they would rather pay a higher price and continue the operation of their mines.

IN THE CHATTANOOGA DISTRICT

Miners Are at Work, but Are Dissatisfied and Threaten to Strike.

CHATTANOOGA, Tenn., July 6.—The miners in the Chattanooga district are all at work, but the situation is very feverish. At Rockwood, Dayton and other points the men recently accepted a reduction, since which time they have not appeared to be satisfied. The men in this district are usually controlled by the action of the Soddy miners, and there has been no disposition at that point to go out.

The men at Soddy are controlled by conservative leaders, one of whom said it was impossible to tell what they were going to do. They are very quiet and are not talking, but there is an undercurrent of dissatisfaction that may at any time terminate in a strike, which will be followed by all the other miners in the district.

Indiana Miners Are United.

TERRE HAUTE, Ind., July 6.—President G. W. Knight of the Indiana Miners' association said: "I have certain advice from every county of our district, except part of Sullivan, which assure me that the strike in Indiana will be general. Even the block coal men are going out. I can not tell the exact number of striking men, but there are about 8,000 men engaged in mining as an occupation in the state. It is true that a per cent of these have not been closely observant of the union rules of late, but I am confident that they will all join in this movement."

Brazil Miners All Out.

BRAZIL, Ind., July 6.—A large meeting of miners was held here yesterday. By a unanimous vote the meeting endorsed the action of the miners Saturday in declaring a suspension. The operators called a committee of the miners in session and argued with them against suspending, but it was of no avail.

CLARKSVILLE, Tenn., July 6.—Edward Mallory, 15, unable to swim, was carried down by the Cumberland river current and drowned.

TO PREVENT UNPLEASANTNESS.

The Stars and Stripes Forcefully Taken From a Flagstaff.

HALIFAX, July 6.—The town of Digby is full of American visitors. They began an enthusiastic celebration of the Fourth of July Saturday night by bonfires and many crackers. Sunday the Digby folk awoke to find on the town's flagstaff an immense American flag floating to the breeze with a tiny union jack beneath it.

The custodian of the flagstaff, who is a prominent hotel man, was asked to take down the union jack, even if he left the American flag, but under pressure of his American guests he refused it. Then a crowd of indignant and bellicose citizens gathered and forcibly removed both the stars and stripes and the union jack, to prevent unpleasantness, they said.

REV. GALLAGHER PASSES AWAY.

A Retired Clergyman That Has Filled Pulpits in Several States.

NEW YORK, July 6.—Rev. Mason Gallagher, a retired clergyman of the Reformed Episcopal church died yesterday at his home in Brooklyn, aged 76 years. He had filled pulpits in Brooklyn, Covington, Ky., Duluth, Minn., and Paterson, N. J. He was the author of several religious works, prominent among these being "The True Churchman Vindicated" and "The True Historic Episcopate."

During the rebellion he was chaplain of the Tenth New York volunteers. He was a member of the G. A. R. and had been secretary of the Society of Chaplains of the Army of the Potomac.

Lumber Sheds Burned.

KANSAS CITY, Mo., July 6.—Most of the lumber under the sheds at J. W. Merrill's lumber yards in the southwestern part of the city was destroyed by fire last evening. It is supposed that the conflagration was caused by small boys who were shooting fire-crackers in the sheds early in the evening. What time the boys left the place is not known, but the yards were in a blaze about 9 o'clock, when the alarm was turned in.

Held 'Gators.

OVIEDO, Fla., July 6.—While a party of seven colored Baptist converts were being baptised in the St. John's river here two big alligators made a rush for the crowd. One of the women was caught, but the minister scared the saurian off. It seized him by the arm, however, making a fearful gash. The men in the party came to the rescue with clubs, and a great uproar ensued. Several were hurt.

Run Down by a Gravel Train.

CHICAGO, July 6.—Two men met instant death near Blue Island by being run down by a gravel train, which struck the railroad trieyele on which they were riding. Both were terribly mangled and were picked up from beneath the train dead. The victims are N. E. Burden, depot agent for the Wabash railroad at Chicago Ridge, and H. A. Sauberg, section boss at Chicago Ridge.

Ammonia Tank Explodes.

GREENSBURG, Ind., July 6.—The building of the Greensburg ice plant was completely demolished and six men were injured by the explosion of a large tank of ammonia yesterday. The force of the explosion was felt for several miles and almost created a panic among the people of this city, who thought it was an earthquake. The loss is estimated at between \$3,000 and \$4,000.

Windstorm Sweeps a Beach.

NORWALK, O., July 6.—A severe windstorm swept Ruggles beach, near Huron, yesterday afternoon, playing havoc with a large oak grove in which several thousand people were enjoying themselves. Frank Chandler of this city had both legs cut off at the hips by a falling tree. A dozen horses were killed and a large number of buggies and carriages smashed into kindling wood.

Fourth Observed in Venezuela.

NEW YORK, July 6.—A dispatch from Caracas, Venezuela, says: Independence day was celebrated here with enthusiasm. William W. Russell, the secretary of the United States legation and at present the American charge d'affaires, held a reception, which was attended by the leading Venezuelans and by the diplomatic corps.

Oil Well Set on Fire.

ANDERSON, Ind., July 6.—An oil well north of the city was ignited yesterday by a lighted cigar. The derrick and \$1,400 worth of tools disappeared like magic. The flames shot 40 feet into the air, and the roar could be heard for miles. No one was injured.

Killed by a Bomb.

NONQUIT, Mass., July 6.—Henry B. Stone of Chicago was killed here yesterday by the explosion of a bomb. He was formerly vice president of the Chicago and Burlington railroad, and recently president of Chicago Telephone company.

Planing Mill and Lumber Yard Burned.

AKRON, O., July 6.—Fireworks caused a blaze which destroyed Jackson & Lyman's planing mill and a large part of their lumber yard yesterday. The firm is in the hands of Bert Jackson, receiver. The loss is \$15,000, partially insured.

WHEELING, July 6.—The new scale has been signed by the tin mill management at the La Belle, and at the Laughlin in Martin's Ferry, and both mills will resume operations within a few days.

Spanish Outrages That Are Almost Beyond Belief.

LITTLE CHILDREN IMPRISONED.

They Are Charged With Being "Abettors of the Rebellion"—Young Girls Carried Off and Are Never Seen Again—Weyler Offers a Pardon to All Those Who Will Surrender—Other Cuban News.

NEW YORK, July 6.—A dispatch to The World from Havana says: Senors Borelles, Mirandios, Natrones and Diaz, all wealthy residents of Guanabacoa, were arrested recently and hurried to jail. The next night their homes were invaded by troops and police, and their wives and daughters were forced to go with them, hardly having a chance to dress. Indeed, two of them, handsome girls of 16 and 18, were taken away in their night garments, the soldiers indulging in the coarsest jests regarding them and their appearance. These women have disappeared, and to complaints made in Guanabacoa and Havana, no attention is paid.

La Lucha reports that 14 children from 6 to 15 years old have been put in prison as "abettors of the rebellion."

La Lucha, El Comercio and Diario de la Marina taunt the "Yankees" with being "fiery on paper, but inactive in work," and they say Calhoun's reports are "slumbering in a pigeon hole from which McKinley will never dare to withdraw it."

The American colony is insulted daily in the papers, and many sarcastic remarks were made regarding "America's sudden change of front when Spain stood on her dignity."

AN OLD PROMISE RENEWED.

Weyler Will Pardon Those Who Surrender With or Without Arms.

HAVANA, July 6.—Captain General Ceyler, after his arrival at Sancti Spiritus, province of Santa Clara, issued a proclamation to the insurgents and pacificos, saying that the approaching inauguration of the scheme of reforms for Cuba was more important than the insurrectionary movements in the province of Santa Clara, adding:

"Therefore I will pardon all who surrender with or without arms. They may give themselves up at any military station by making signs with handkerchiefs, so that the troops may know their intention to surrender. Those who surrender with arms will receive provisions and will be employed on the public works. Those who bring in cattle or horses with them may keep the animals or sell them."

Official advice from Sancti Spiritus say that the insurrection in that district has so completely collapsed that the battalions of troops which have been on duty there are being sent eastward.

EXCITEMENT IN HONOLULU.

An American Girl Beaten by Japanese Sailors.

VANCOUVER, B. C., July 6.—The latest mail advices from Honolulu say that Nellie West, an American lady, was severely beaten by two Japanese marines from the warship Naniwa recently while trying to assist her brother, who had been set upon by a number of man-of-war men from the Japanese navy. She was confined to her bed next morning and unable to appear against her assailants in court, where they were charged with assault and battery.

Feeling here runs high over the matter. A well-known business man knocked down three Naniwa sailors on the street the following morning in consequence, while American blue jackets went hunting for the ringleaders of the Japanese who made the assault. One who was pointed out to them as being guilty was so severely beaten by them that his life now depends on the result of a delicate operation.

Both Were Drowned.

CLEVELAND, July 6.—About 10 o'clock yesterday forenoon a man about 60 years of age hired a skiff. He was accompanied by a woman about 40 years old. The man told the boathouse keeper the woman was his daughter, and that she was weak-minded. They rowed out on the lake until late in the afternoon, the boat hovering about one spot. Finally they appeared to engage in a scuffle and one of them fell or jumped from the boat. The other followed. The boat when recovered was perfectly dry inside. There is no clue to their identity.

Dr. Alfred Lefevre Dead.

KANSAS CITY, July 6.—Dr. Alfred Lefevre, a member of one of the oldest huguenot families in America, is dead at his home here, of cancer of the stomach. Dr. Lefevre came here from Dayton, O., in 1855. He was born at Troy, O., in 1822 and was a direct descendant of Isaac Lefevre, one of the first French huguenots to come to America in 1708. Judge O. E. Lefevre of Denver, son of the deceased, will take the remains to Ohio for burial.

Double Drowning.

SPRINGFIELD, Mass., July 6.—The illumination and fireworks display on the river last night were marred by the drowning of the two men who were handling the fireworks, W. Malone of Brooklyn and John T. Nolan of New York.

Cut in the Lung.

BLANCHESTER, O., July 6.—John Ludden of this vicinity died from a cut in the lung received in a fight with a negro at Martinsville.

INDICATIONS.—Thunderstorms; light variable winds.

The Republican Senators have actually re-enacted the anti-trust sections of the Wilson bill.

ACTING GOVERNOR WORTHINGTON didn't pardon any one on a certain day last week, and the Cynthiana Democrat explains it by saying the Colonel had cramp colic.

A MAN who has carefully investigated the subject says there are at least 20,000 houses for rent in the city of Chicago. There are 600 store rooms waiting for tenants on one Chicago thoroughfare. Maysville people who talk about "hard times" should move to Chicago.

TINKERING

With the Tariff Causes the Shut-down of Paper and Fur Mills in New Jersey.

NEW YORK, July 3.—The Seely paper mills and the Hollingsworth fur mills, near Scotch Plains, N. J., have shut down for the first time in twenty years. The reason is: "Congress has been tinkering with the tariff so much that there is no market for the goods."

These same concerns before election urged their employees to support McKinley, and argued that if he was elected the demand for their productions would be increased.

Instead of increasing, the demand has been steadily decreasing, until finally the goods could not be forced at all. The owners have been running on short time for some weeks, but they have found it impossible to keep going, and now all of the employees will have to seek employment elsewhere.

The merchants who have been dependent upon these workmen for patronage are in a bad way.

Electric Park.

There was no performance at the park theatre last evening owing to the threatening aspect of the weather. However the company gave a rehearsal, and it is the judgment of one who saw it, it is one of the best programs ever presented in this city. Go out this evening and see what a nice little place of amusement we have in our town.

A claim of Captain Hamilton for \$8.03 was allowed.

Witness fees to the amount of \$18 in the Guilfoyle and Brown cases were allowed and ordered paid.

The Mayor vetoed the "City Attorney" ordinance because he did not think the salary provided was sufficient. The salary was fixed at \$300, with fees added. The vote adopting the ordinance was on motion reconsidered, and the ordinance was then adopted over the veto by a vote of 9 to 2, Messrs. Pearce and Frost being the ones voting no.

The Mayor also vetoed the ordinance providing for the election of Chief of Police, fixing his salary, &c., principally for the reason that he thought the compensation provided was not in proportion to the salary paid other city officers. The veto was allowed to stand and a new ordinance was introduced and adopted under a suspension of the rules fixing the salary at \$1,000 a year.

City Clerk read the receipt of City Treasurer Fitzgerald of receipts for taxes for 1897 amounting to \$35,002.96.

Mr. Butz, of The Headlight Publishing Company, was granted the floor and stated what the company expected to present in the forthcoming illustrated publication setting forth the commercial and industrial interests of the city, and the advantages of Maysville. He asked that the city purchase a thousand copies of the book at 10 cents a copy for circulation, same to be placed in the Mayor's care. A motion to that effect was adopted.

The following bids were read for constructing an eighteen-inch sewer along Second street and Washington, Sixth ward, 350 feet in length, including two "man holes," to the river:

W. O. Hoops	\$265 00
Charles B. Paul	275 00
J. J. Fitzgerald	276 00
T. J. Moran	320 00
George H. Traxel	320 00
S. B. Oldham	277 50

Mr. Dresel stated that property owners along the route of the proposed sewer had subscribed half the cost, and would be ready in a few days to turn the money over to the Internal Improvement Committee. He moved that the contract be let to the lowest bidder. The contract was so let, and work is to be commenced as soon as the property owners turn over half the cost.

The G. Perin Artificial Stone Company of Boud Hill, Ohio, presented a proposition to improve the Market street plaza, with cement walks and gutters, the whole to cost \$793. Dr. Smith and Mr. Crowell, who have had the matter under consideration, stated that if the city would have the work done, they would guarantee the erection of a handsome fountain. A motion to accept the proposition was made, but final action was postponed until next meeting. The proposition calls for 392 lineal feet of curbing and gutter, and 4,128 square feet of walks, and they would guarantee the work for five years.

The list of suspended taxes owed by widows was read. The total amount is \$127.30.

City Attorney Chamberlain reported he had examined the records as directed, and found Upper alley, extending south from east Fourth street to Fifth, was a

public alley, and so laid out on a plat of the city in 1797.

Mayor Cox stated he had succeeded in finding only 327 shares of turnpike stock owned by the city, 300 in the Maysville and Lexington pike and 23 in the Mt. Carmel.

Mr. J. H. Zorn, who is getting up the new city and county directory, asked Council to buy ten or fifteen copies of the work. He said the city had been thoroughly canvassed, and the directory would be complete. He did not want a cent paid until the directory is published and proves satisfactory. Ten copies were ordered.

Sullivan & Co.'s saloon license was transferred to James Sullivan.

William Mitchell was granted license to conduct a saloon at No. 111 Market Street.

The following permits were granted: Mrs. M. Buffington; to erect a one-story frame cottage on east side of Huston avenue.

Mr. John Bauer; to erect a two-story frame addition to her residence at 210 and 212 West Third street.

U. B. Sutton; to erect a coal house and other outbuilding on Short street.

The Internal Improvement Committee was ordered to put new floor in the Limestone creek bridge.

The fire companies were allowed their annual salaries.

A brick gutter was ordered put down on south side of Third from Patton alley to Sutton street.

Mr. Dersch stated that numerous complaints were made about a couple of shanties owned by the C. and O. in lower end of town. They were frequented by tramps and such characters and had become a nuisance. The matter was referred to Board of Health.

Mr. Frost asked Council to donate \$100 to the First ward mission to aid in conducting a free night school in that ward for the benefit of the poor children who have to work and are unable to attend the day schools. He said there are about seventy-five children in the ward under sixteen years of age, who are compelled to work during the day to get bread and meat, and that they would grow up in ignorance unless a night school is established. He said the mission conducted a night school last winter and that the good results in every way were quite noticeable. The mission would furnish rooms, light, fuel and books, but asked the city to contribute something to aid in paying the teachers. It was expected to conduct the school about four months. On motion \$25 a month for four months was unanimously voted the mission for this work and placed in hands of Councilmen Frost and Dersch.

City Attorney Chamberlain stated that a mandate from the Court of Appeals had been received in the case of the city against Mason County, which was decided in favor of the city. The litigation was over the right to use the jail. Mr. Chamberlain said the city had paid out about \$80 as costs, &c., which it was entitled to recover from the county, and he was directed to present the claim to the next Fiscal Court.

A deed from William Holliday to the city for a small strip of ground in Sixth ward for street purposes was read and the matter was placed in Mr. Chamberlain's hands to have the transfer made. The consideration was taxes due the city, amounting to about \$30.

Frank Wornald was allowed \$2 and Frank Purnell \$4 witness fees.

The ordinance exempting follen from jury service and payment of poll tax was recommitted to the Committee on Laws and Ordinances.

Five bonds, each for \$500, were ordered sold to provide funds for current expenses. Council then adjourned.

Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill street, South Gardiner, Mass., was told by the doctors. His son had lung trouble, following typhoid malaria, and he spent \$375 with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial bottles free at J. James Wood's.

INVEST AT HOME.

Costly Experience of Lexingtonians Who Put Money in so Many Outside Concerns.

[Lexington Herald.]

The city of Lexington and the county of Fayette are rich and prosperous. The surplus of their thriving and intelligent citizens is year by year considerable, and if invested at home, Lexington would be probably as rich as Hartford or New Haven, Conn., or any of the very rich interior cities of America, but her citizens seem to have no confidence in home talent, home integrity, or home enterprises, and invest with careless recklessness in remote enterprises conducted by entire strangers, without any real investigation as to the character, intelligence and standing of those strangers. The money sent from this city and county and invested in other sections of the State, and in other States and already lost would, if stated in figures, startle the community.

An eminent banker said to the Herald Saturday that over \$1,000,000 had been sent from Lexington during the last five years, and lost in various investments. It might be invidious to attempt to specify all of these unfortunate investments, but it is a matter of public notoriety that Lexington lost over \$200,000 in Texas banks; \$250,000 in Kansas City banks; and perhaps \$500,000 in non-paying coal mines; nearly as much in mines in Colorado, Montana and the Northwest; large sums in Texas ranches; unnumbered sums in boom towns scattered through many States and on numerous maps, and if a slick-tongued stranger, gentlemanly in address, pleasant in manner, seductive in figure, were to come to Lexington to-day he would probably carry with him out of Lexington a larger sum than would pay all our municipal and county debt.

In the four building associations of Louisville which have made assignments in the last week the aggregate investments of citizens of Fayette County will probably reach \$60,000. How much is tied up in similar associations that are in the hands of receivers in Knoxville, and in other cities, the Herald is not informed.

Nor is the Herald informed as to all the foreign enterprises in which Lexington capital has been invested. The returns in some instances have been satisfactory. But it does know that the larger part of the money of Lexington

invested outside of this county has been lost.

Now on the other hand, the management of our financial institutions has been conspicuously able and honest. During the terrific panic commencing in 1873 one Lexington bank broke. This we are informed is the only Lexington bank that has broken for over three score years; probably not since the war of 1812. And there is no doubt that every bank in this city is now in a sound financial condition. The statement of the First National Bank may be taken as a specimen of the wisdom, financial skill and integrity with which our institutions are now managed, and with which they have always been managed.

Not one of our building associations has made an assignment, and so far as The Herald can ascertain through its reports and other sources of information, every one of them is in a good condition, and will safely pass through this period of readjustment which seems to be required by the late decision of the Court of Appeals. Those who have invested in real estate in Lexington have done well. The Herald means those who have really invested, that is, had money with which they purchased property. It does not mean those who gambled in real estate in Lexington, who, not having money, bought on time. Some of these could not put up the additional stakes necessary for the game, and what they put up was raked down by others, but this is frequently the fortune of the unfortunate gamblers whose finances are not equal to his aspirations.

We would be glad if some of our able financiers will make a calculation of what has been lost by our citizens in these unprofitable foreign investments, and what would be the condition of Lexington if those sums had been invested at home.

Danville Advocate: "The collapse of the Louisville building and loan associations will prove a costly, but valuable lesson to a great many persons in this community, who yielding to the temptation of prospective big profits dumped their money in these foreign enterprises instead of investing it at home where it would have been safe."

YES,
Matters
Are Improving!

Hundreds of times within the past month have we been asked if business is improving.

Above is our answer.

The improvement in prices in our home-grown products has a tendency to lead people to buying better qualities than they did in the past three years.

As an evidence of this we can truthfully say that since the advance of price in tobacco we have sold more of our highest class of goods than in thrice the given time in the past few years.

It is a great satisfaction to a merchant to sell good, reliable goods. Greater still when he knows his efforts in that line are appreciated.

The season for selling summer Clothing is drawing to a close. Having bought only the highest grades of garments, we have nothing of any hard character to offer as a catch.

To be sure, in many of our lines sizes are broken, but if you can be fitted you will buy the choicest of Clothing at less than you pay for ordinary stuff elsewhere.

From the 1st to the 10th of July we will devote to a clearing sale throughout all of our departments. If you desire to partake of some of our good things, come along.

Friday, Saturday and Monday we will have plenty of help to wait on you.

DANIEL TAGGART and his brother were jailed at Cynthia Sunday for shooting William Lawson and an old man of Berry, at whose house Lawson was staying. A mob attempted to take the accused from Constable King and hang them, but were driven away by the officer's firm stand.

DOVER NEWS: "It is said that Prof. Curry, of Germantown, has been chosen Principal of the Dover school for the ensuing year. Miss B. A. Hauna and Miss Lilly Howard, our well known teachers, will teach the same rooms they had last year. Prof. Curry has taught eight years at Germantown and comes highly recommended."

DANVILLE is hit hard by the building and loan association assignments at Louisville. Fully \$50,000 of paid-up stock in the Commercial Building Trust is held there, about \$20,000 of it by Rev. John L. Smith. Also a lot of installment stock. A number of borrowers who will have to settle will be worried by the assignment. The Columbia has 200 shares held there by installment stockholders.

SEVERAL prominent C. and O. employees and officials are on a trip West for the purpose of inspecting the various railroad hospitals in St. Louis, Moberly, Kansas City and elsewhere with a view to establishing one or more hospitals on the line of the C. and O. railroad. The proposed hospitals will be self supporting, as they will be kept up by a very small monthly fee being collected from each and every employee on the C. and O. system. One of them may be located in Maysville.

Points of Interest to the Members of the Local Association.

In appointing the association committees for the second year at the June meeting of the directors, a list of which was subsequently printed in these columns, the names of Miss Martha Stevenson and Miss Mary H. January, who had served as members of the Women's Committee last year, were unintentionally omitted. Last Friday evening, when the directors met, these ladies were re-appointed on the committee and Miss Lizzie Cox was added to the same.

On Friday evening of this week at 7:30 o'clock the members of the newly appointed Women's Committee will meet in the association parlour to organize, choose officers and talk over one or two important matters.

President Lane has appointed Messrs. John Duley, W. T. Berry and William H. Cox as a special committee to audit the accounts of the Treasurer and General Secretary for the fiscal year recently closed.

The program for the Sunday afternoon rally, as announced in Friday's Bulletin, could not be fully carried out, as neither speaker or singers were able to be present; but through the kindness of other friends, who volunteered at the last moment, an excellent meeting was conducted under the leadership of President I. M. Lane. Miss Florence Konz presided at the piano, Miss Bertha Ort sang very sweetly a patriotic song entitled, "Hail to the Flag," and brief selections bearing on "Christian Citizenship," written by prominent men, were read by several young men, thus making a short, interesting rally. At the close, lemonade was served.

The things that people see inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it's the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and the disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

BONDS AND STOCKS TAXED.

An Important Paragraph of the Tariff Bill Passed by the Senate.

WASHINGTON, July 6.—Senator Allison, in charge of the tariff bill, announced shortly before the adjournment of the senate last night that as no agreement had been reached for a final vote on the tariff bill he would ask the senate to remain in session Tuesday night at least until the bill was reported from committee of the whole to the senate. This promises a test of endurance, unless the opposition to the bill give way. Mr. Allison's statement was made after another further effort to have a time fixed for the vote.

In some respects the senate made good progress yesterday, disposing of two important amendments, that placing a stamp tax on bonds and stocks being agreed to with little or no opposition and without the formality of a vote, while the Spooner amendment, proposing a tariff investigation, was withdrawn after a protracted struggle. The stamp amendment as agreed on fixes the following rates on bonds, etc.:

"Bonds, debentures or certificates of indebtedness issued after Sept. 15, 1897, by any association, company or corporation, on each \$100 of face value or fraction thereof, 5 cents; and on each original issue, whether an organization or reorganization, of certificates of stock by any such association, company or corporation, on each \$100 of face value or fraction thereof, 5 cents; and on all transfers of shares or certificates of stock in any association, company or corporation, on each \$100 of face value or fraction thereof, 2 cents."

Exemptions from the stamp tax are made in the case of state, county and municipal bonds, and the stocks and bonds of co-operative building associations.

In the House.

WASHINGTON, July 6.—The house by a party vote, without transacting any business, took a recess until Wednesday to be ready for the tariff bill, if completed before then by the senate.

White Stealing a Ride.

RICHMOND, Ky., July 6.—A white man, aged 21, was found dead in a log car at Shearer station, on the Louisville and Nashville road, near here, with his neck broken and a large log lying across his body. No one here knows the dead man. A small amount of money was found in his pocket. He was a tramp and met death while stealing a ride.

Society Woman Missing.

CHICAGO, July 6.—Mrs. Martha MoArthur, who only two years ago was one of the leading society belles in Toledo, O., has been missing from her lodgings in the Grand Union hotel, Madison and Dearborn streets, since Tuesday, and her friends fear that she has carried out an oft-repeated threat to commit suicide.

FIVE DEAD AND FORTY INJURED.

Result of Celebrating Fourth of July in Chicago.

CHICAGO, July 6.—Five people lost their lives and there was an unusually long list of maimed and injured people as the result of the Fourth of July celebrations. The dead are:

James W. Keene, found dead in his back yard; struck in the head by a stray bullet.

Charles Smith, frightened by the explosion of a giant fire cracker, and fell out of a second-story window.

John Hoffwetter, 8 years old, killed by the explosion of powder in a glass bottle, which he held in his hands.

John Thomas, 12 years old, killed in exactly the same manner as Hoffwetter.

William Allen, 8 years old, clothing ignited by fire-crackers, causing fatal burns.

About 40 people were slightly injured during the day.

LOUISVILLE TOBACCO MARKET.

A Week of Very Large Sales, and at Prices Highly Satisfactory—The Outlook.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 3,596 hhds., with receipts for the same period 3,967 hhds. Sales on our market since January 1st amount to 93,141 hhds. Sales of the crop of 1896 on our market to this date amount to 79,421 hhds.

We have had a week of very large sales on our market with an unusually large proportion of good to fine leaf which grades have sold at prices highly satisfactory to sellers. The market during the week was a few bids lower for the very common grades of burley especially where the condition was doubtful, but there has been no tendency toward lower values for any other kinds. A great many sales were made during the week at prices ranging from \$15 to \$20 with occasional bids, selling from \$20 to \$23, the latter price being the highest of the season.

The following quotations fairly represent our market for burley tobacco (1896) crop:

Tin Plate Trust Forming.

CHICAGO, July 6.—American manufacturers of tin plate are trying to form a gigantic trust, with a capital of \$20,000,000, this amount to be increased if the organization is a success. There are 189 mills in the United States. There has been a general shutdown all over the country, the employees going on a strike. The new trust is a bone of contention between employers and manufacturers. Each wants the benefit of the increase.

Man and Wife Killed.

YOUNGSTOWN, O., July 6.—Thomas Morgan and his wife met a horrible death yesterday afternoon. They were driving near a cliff, when the horse backed the buggy over the bank. Mr. and Mrs. Morgan fell 60 feet and were instantly killed.

LAND FOR SALE!

I will offer at private sale 600 acres of Land lying in Salt Lick Valley, in Lewis County, Ky., and two and a half miles from Vanceburg, the county seat, and on a good turnpike. There is 100 acres of bottom land and 500 acres hill land. The hill land produces tobacco, corn, wheat and grass and is also the finest fruit and strawberry land in the state. The bottom land grows corn, wheat and timothy hay, and has 1,600 choice fruit trees on it now. There are two good dwelling houses, a good stock barn, an almost new tobacco barn, a good corn crib and plenty of water for stock and family use. This is one of the best stock farms in the country. This farm is for sale under a judgment recently rendered in the Lewis Circuit Court and is offered at \$1,500, which is a very low price. Will make purchaser a warranty deed. For further information address E. C. ROWLAND, Vanceburg, Lewis County, Ky.

At Ruggles' Camp Ground,

SATURDAY, JULY 3, at 10:30 am., the following privileges will be let to the best bidder: Hotel, Confectionery, Stable, Baggage room and Barber shop. The board reserves the right to reject any or all bids.

The meeting on these beautiful and much improved grounds will be held beginning July 22, and closing on August 1. Eminent divines will be present. Rev. M. Swadner, of Cincinnati, O., and the ministers of the Covington and Ashland districts are expected to be present. The singing will be in charge of Prof. J. G. Crabbe, of Ashland, assisted by a splendid choir, which is an assurance that it will be all that can be desired. A four-story room house has been built with porches all around, making accommodations for any and all comers. The Tabernacle has been enlarged and the hotel will be improved by the directors this year. And the best of all is we have excellent water—two large distena and three wells. One of the wells is 150 feet deep, the water of which has been analyzed and contains the following medicinal qualities: Total solids, 3.5 to the liter, soluble salts 3.16 to the liter; consisting of chlorides and sulphates of magnesium, sodium and potassium; insoluble salts .64 to the liter, consisting of calcium carbonates with traces of iron.

The meetings will be in charge of Revs. G. R. Frenger and J. G. Dover, Presiding Elders of the Covington, Maysville and Ashland districts. If you desire tents write I. M. LANE, Maysville, Ky.
